Warnings

READ BEFORE USING YOUR SEGA VIDEO GAME SYSTEM

Epilepsy Warning

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. **If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.**

Owners of Projection Televisions

Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection TVs.

About Audio Connectors

If the Audio connection is made to your television from the Sega CD, the Mixing Cable must be used to connect the headphone output jack on the front of the Genesis to the MIXING input jack on the rear of the Sega CD. If the Audio connection is made to your television from the Sega Genesis (using either the RF cable or a Video Monitor cable), the Mixing Cable must NOT be used.

A VAST SEA OF DISCOVERY ... AND DANGER!

Life was an adventure for Ecco, the young dolphin. The ocean seemed endless, with rolling breakers to race through! At high speed, Ecco could burst through the waves, leaping through the air — almost flying! Then, with a deep gulp of breath, Ecco would plunge down into the blue depths, where Shelled Ones hid in the coral crannies on the ocean floor.

Ecco knew that dolphins couldn't breathe underwater.

Fish and coral stayed below the waves. But Ecco's kind needed air. This was a puzzle, and Ecco wanted to learn the answer.

The ocean was full of songs. There were easy ones that came to Ecco naturally. These were the songs for calling dolphins and other singers of the watery world. There were new songs that took time to learn. These songs could open the Shelled Ones and scare off the Hungry Ones who roamed near the dolphins' home. And then there were songs about just being alive and free!

The dolphins also had sad songs about stinging jellyfish, swift currents and rocky walls that trapped singers deep underwater. But the best ones were the proud, powerful songs about teeming schools of fish that filled the oceans and were good to eat, and about submerged, air-filled caves where dolphins could breathe.

Five bright marks shone on Ecco's sleek head. No other dolphin had these silvery spots. When the air was dark, the family would sing that Ecco's markings matched five shining points far up in the sky. The song said that Ecco was special, a favorite of the ocean. Or maybe, it went on, the markings were just for looks, the way some fish had stripes.

But the broad sky of the dryside also held a hidden terror. One day it attacked, without warning — a huge gust of swirling wind like a churning whirlpool of air and water. It tore all life from Ecco's Home Bay. Singers and Shelled Ones and even the small fish were ripped, helpless, twisting in fright, into the high nothingness beyond. And then they vanished!

Only Ecco remained. In the flash of one leap, Ecco's safe home, full of life and song, had become strange and silent. Everything had changed.

Now Ecco must fight to stay alive. Deadly hazards fill the wide oceans outside, but Ecco must find the lost dolphin pod.

From the rip tides of the southern gulfs

to the frozen chill of northern seas, Ecco must search through sunken worlds where razor teeth and poison stingers lurk in the dark depths.

Ecco, all alone, faces a treacherous quest to save the family. Only by fighting to survive can Ecco rescue the singers of the sea, and end a disaster that threatens the entire world!

SETTING UP FOR Q SOUND

QSound Virtual Audio is a revolutionary, multi-dimensional sound placement technology. If your Sega CD is connected to stereo sound, you can submerge yourself in the magic of state-of-the-art QSound. This amazing sound technology gives you 180 degrees of audio in a greatly expanded sound field. You'll be surrounded in waves of 3-D sound!

Follow the guidelines in this section to set up your Sega CD and stereo systems for optimum QSound stereo listening.

BALANCE

If your system has a single balance control, set it to the center balanced position. If each speaker in your stereo system has a separate volume control, set them as equally as possible.

SPEAKER PLACEMENT

Place the speakers at equal distance from the listener, on the same plane, at the same height and at least three feet from side walls. You can angle the speakers slightly.

Right. Position speakers on the same plane, at the same height and angle.

Wrong.

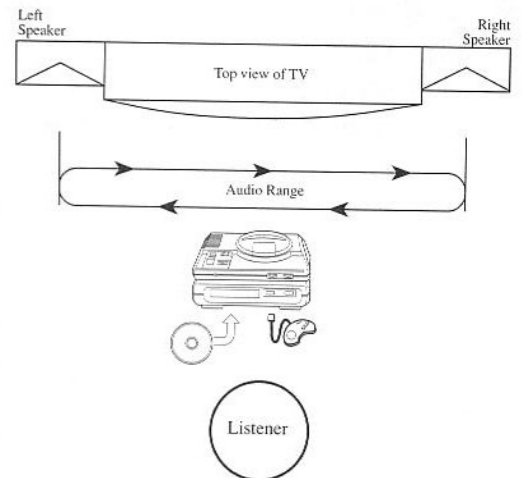

SPEAKER CABLING

For proper phasing, make sure you match red to red and black to black (positive to positive, negative to negative) when connecting the wires from both the left and right speakers to the amplifier or sound board. One side of the speaker wire or lamp cord is often marked for this purpose with a line or ridge.

Sega CD Software with QSound Virtual Audio

Sega CD Software with Conventional Stereo

STARTING UP

1. Connect your Sega CD and Sega Genesis™ systems and plug in control pad 1. Turn on your TV or monitor, and then turn on your Genesis.
2. Place the *Ecco the Dolphin* CD into the disc tray, label side up. Close the tray.
3. If the Sega CD logo is on screen, press **Start** to begin. If the Control Panel is on screen, move the cursor to the CD-ROM button, and then press **Button A, B** or **C**. The Sega screen appears.

Note: If *Ecco the Dolphin* is already in the Sega CD when you turn it on, the game will begin automatically after a few moments.

HANDLING YOUR COMPACT DISC

- ❖ The Sega CD compact disc is intended for use exclusively on the Sega CD system.
- ❖ Avoid bending the compact disc. Do not touch, smudge or scratch its surface.
- ❖ Do not leave the compact disc in direct sunlight or near a radiator or other source of heat.
- ❖ Always store the compact disc in its protective case for safekeeping.

A LOOK AT ECCO'S LIFE

1. Right after the Sega screen, join Ecco in an ocean playground where carefree dolphins race through the waves. In a few moments, the Title screen appears.
2. Wait at the Title screen to see a game demo. Watch Ecco use a rock to swim against a fast current and save a trapped dolphin.
3. Keep watching to see two more demos (the Title screen appears between each one). Each demo shows how Ecco cleverly solves problems and stays healthy. Learn the strategies Ecco needs to survive the under-sea dangers. (You can watch the game demos again at any time for reminders.)
4. Press **Start** at any time to return to the Title screen. Press **Start** again to go to a submerged cavern, where Ecco waits to begin the long journey through the timeless seas.
5. Press the **D-Pad** to the **right** to start Ecco's quest from the beginning.

If you have a password, press the **D-Pad** to the **left** to go to the Password screen. From there, you can start Ecco's adventures from somewhere in mid-journey. (See page 18 for details.)

TAKE CONTROL!

START BUTTON

- ❖ Skips the opening sequence or the game demos and goes to the Title screen.
- ❖ Exits the Title screen and goes to the submerged cavern.
- ❖ Exits the Password screen and starts the quest from your password level.
- ❖ Exits Ecco's Map and returns to the quest.
- ❖ Pauses a game during play; resumes a paused game.

D-PAD

- ❖ Moves Ecco **right** or **left** to leave the submerged cavern at the beginning of the game. **Right** takes Ecco to the start of a new quest; **left** goes to the Password screen.
- ❖ Moves the highlight on the Password screen.
- ❖ Makes Ecco swim in any direction. Hold down the button for cruising speed, and to make Ecco leap when breaking the surface of the water. Tap the button lightly to swim slowly through dangerous passages. (Press **Button C** to speed up.)
- ❖ Exits Ecco's Map and returns to the quest.

BUTTON A (SONAR)

- ❖ Makes Ecco sing. The song ripples out in the direction Ecco is facing. Songs can call to other singers and fight off danger. (See page 13 for details.)

- ❖ Echoes back information about the surrounding ocean. Hold down **Button A** until Ecco's song returns. Then Ecco's Map will appear, showing important undersea features in the direction Ecco is facing. (See page 14 for more details.)
- ❖ Exits Ecco's Map and returns to the quest.
- ❖ Exits any text screen.
- ❖ Erases a letter on the Password screen.

BUTTON B (CHARGE)

- ❖ Makes Ecco dart forward in a short-range, high-speed attack. Ecco can charge schools of small fish to grab food, or attack enemies to make them dissolve.
- ❖ Exits Ecco's Map and returns to the quest.
- ❖ Enters a letter on the Password screen.

BUTTON C (SPEED SWIM):

- ❖ Pumps up Ecco's swimming speed. Press the button repeatedly, and then hold it down to maintain speed.
- ❖ Makes Ecco flip. Use the **D-Pad** to make Ecco swim toward the surface, then press **Button C** when Ecco jumps. The faster Ecco is going, the more spectacular the spin jump will be.
- ❖ Enters a letter on the Password screen.

DISASTER!

Live a dolphin's carefree life in the pleasant waters of Ecco's home. Splash and play! Dive deep to explore the curiosities of sea life on the ocean bed. Speed back and forth in silvery races. Sing, and let your songs return in the pictures of Ecco's Map. Teach yourself to leap. Then learn to flip. With a swish of your flukes you can jump higher . . . and higher . . .

Wham! The sky flashes red. A great wind rips everything upward, tearing the life from the sea. Up they whirl — singers and shells and all that moves in the ocean.

They twist in a spinning funnel, swirling skyward, and they're gone!

Just as suddenly, silence descends. Only you, Ecco, are left, alone in the watery emptiness that now seems far too big. As you dart here and there, searching the surface and plunging to the bottom, you realize the terrible truth: Everyone has vanished.

Who or what has taken your family? Where have they gone? And why were you spared?

Your wandering begins. No matter how long it takes, or where it takes you, you must find your pod. You will leave this once-safe haven and travel as far as you need to go — even to the ends of the earth.

There is still a great deal to learn, to puzzle through, and to conquer on your immense journey. Find the channel that leads away, and start your quest!

SURVIVING THE SEAS

Health
Meter

Like fish and coral, dangers abound in the sea. Many things can hurt you. When they do, you lose strength. If your health runs out, you'll sink, and you'll have to start the level over or continue from the last barrier Glyph you passed.

TO STAY HEALTHY:

- ❖ Charge into a school of small fish for food.
- ❖ Find healing clams, known as the Shelled Ones. Figure out how to get and use their energizing gifts.

Keep yourself healthy, or you'll soon be overcome by the next lurking or attacking foe.

The
Shelled
Ones

BREATHING

Breath
Meter

You need to breathe to stay alive. You can dive to the deepest parts of the ocean, and into the darkest waters, but you must always be close to air. Without it, your breath ebbs away. If you run out of breath, your questing ends, and you must start the level over or continue from the last barrier Glyph you passed.

YOU CAN BREATHE IN TWO WAYS:

- ❖ Leap out of the water, either into the open air or into an air pocket you find in the rocky submerged caverns. You'll regain full breath immediately. (See page 14 for help on finding air pockets.)
- ❖ Push your nose above water, especially in tight submerged pockets where you can't jump. You'll gradually recover breath. Try to regain full breath, but stay on watch for dangers that may force you to move on before your breath meter is full.

Keep your lungs filled with life-giving breath. Never take a chance on getting caught without an air supply.

SINGING

Use your dolphin songs to survive and thrive on your long journey. Sing to the sea life, to other singers and shells, to Glyphs (page 15) and to anything you don't understand. Learn to listen to your songs; they all have different meanings.

SONGS ARE POWERFUL. THEY CAN:

- ❖ Call to other singers, who will respond with songs of their own. You may get clues, pleas for help or important directions. (Press **Button A** to exit a message screen.)
- ❖ Ward off deadly Hungry Ones and other enemies if you've learned the right song.
- ❖ Get new songs, special powers and information from Glyphs scattered throughout the mazes of the sea.

Songs are Ecco's sonar. Use them constantly to explore the dolphins' world. Don't be afraid to experiment; songs can do surprising things.

MAPPING WITH SONGS

Songs that echo back to you bring long-range information. This is called “echolocation.” When you hold down **Button A**, your song reverberates through the currents and caverns, returning to you with a map of your surroundings. (Press any button to exit Ecco’s Map and return to your quest.)

ECCO’S MAP SHOWS YOU:

- ❖ Your position and passages through the rocky walls.
- ❖ Prowling enemies and dangerous objects (shown as orange circles).
- ❖ Glyphs and other interesting objects.
- ❖ Healing clams and air pockets (shown as bubbles).
- ❖ Barriers and moveable rocks and shells (shown as orange blocks).

 ***Make echolocation a habit. Send out echoing songs in all directions to get a full view of the ocean scene. If you can’t find something you need (such as an air pocket or escape route) in one direction, it may be close by in another. “Look beyond your eyes with your song.”***

GLYPHS

Glyphs are mysterious crystals scattered in the ocean depths. The secrets they hold are nearly as old and timeless as the sea itself. Figure out how to gain their powers and knowledge by singing to them or by touching them.

Some Glyphs give you messages. Others impart new songs you’ll need to continue the journey. Barrier Glyphs push you away until you discover how to move them. Power Glyphs can bestow invincibility (you can’t be injured while the power lasts) and fill up your health and breath meters.

Watch for Glyphs wherever you go, and look for them with echolocation. Try not to miss any.

Take your time. Stay calm. Solve riddles by remembering what you’ve learned. Don’t get frustrated — there’s always a solution, and you can find it!

ENEMIES

The sea is a beautiful yet dangerous place. Most undersea life is your enemy! Use your songs to ward off attackers, or charge to scare them away or dissolve them into sea foam. Some enemies, like the octopus, are so quick that only your wits or a hint from a Glyph can save you.

Avoid enemies by swimming slowly. Always move cautiously in unexplored waters. Going slow is sometimes the fastest way to move ahead.

BARRIERS AND CURRENTS

Rocks, shells and island barriers will block your progress. You may be caught in overpowering currents that are too swift to swim through.

For every obstacle, there's a solution. It may be in a message or waiting in a Glyph. Search for moveable rocks, free-floating shells and unusual sea life. Then figure out how to use them. Try charging to break barriers. Push rocks ahead of you to fight through currents. And remember: the shortest route is not always underwater.

RESCUING LOST DOLPHINS

Six young dolphins have foundered in the craggy depths. You must find them all and guide them back to safe waters.

When you locate a lost dolphin, glide slowly over him, close to his back and a little ahead of him. Try to swim in the direction he's going, but if he turns, that's OK. Wait a few seconds, and he'll turn around again. When he begins swimming like you, he's ready to follow. Then you can lead him back to his pod.

Save ALL the lost dolphins. You'll gain abilities and songs that will help you for the rest of the quest. (You can only save one dolphin at a time.)

USING PASSWORDS

Almost every level has a name and a password. You'll see these on the screen that appears when you start the level. You can write down the information in the password notebook on pages 22-23. Later, you can use the passwords to begin the game at a level you've already played. (Press **Button A** to exit the text screen.)

Note: Passwords change each time you restart a level. To return to a level, you can use any of its passwords; they all take you to the beginning of the scene.

To begin a game from somewhere in mid-journey, press **Start** at the Title screen, and then move Ecco to the **left** in the submerged cavern. The Password screen will appear.

TO ENTER A PASSWORD:

1. Use the **D-Pad** to highlight a letter.
2. Press **Button B** or **C** to add that letter to the password at the bottom of the screen.
3. Press **Start** when the password is complete.

TO EDIT A PASSWORD:

1. Use the **D-Pad** to highlight the left or right arrow.
2. Press **Button B** or **C** to highlight a letter in the password; press **Button A** to delete it.
3. Use the **D-Pad** to select another letter at the top of the screen.
4. Press **Button B** or **C** to add that letter to the password.

ECCO'S FAMILY

Ecco is a bottlenose dolphin, whose family (or species) is remarkable for being almost totally unafraid of humans. They readily approach ships and boats, and are wonderful to watch at play. They are graceful and agile, rising in turns to "blow," and they seldom if ever rudely jostle each other for position.

Bottlenoses group in small social units of about 15 dolphins or less. While feeding, each dolphin follows its own track, rising up in the water two or three times a minute. Occasionally before diving, dolphins will "lobtail," loudly flapping their flukes on the water's surface. Usually, they dive for less than a minute, but their underwater stays have been clocked at as long as 10 minutes! At times, individual dolphins will suddenly "breach," hurling themselves 16 feet or more into the air.

Dolphins make their home all over the globe in warm and temperate waters. One of their secrets to being able to live world-wide is their less-than-picky appetite. Bottlenoses eat 15 to 33 pounds of food a day, usually feeding in shallow waters on inshore bottom-dwelling fish. They'll also pleasurably dine on eels, catfish, sharks, rays, hermit crabs and shrimp.

Cooperation seems to be the rule with bottlenoses. On record is the story of a dolphin pod that chased a school of bluefish into a shallow bay. They stationed two guards to keep the fish captive, while the rest took turns chowing down. In another report, two dolphins were seen supporting a third, that was stunned, and assisting it to the surface to breathe.

DOLPHIN FACTS

- ❖ The scientific name of bottlenose dolphins is *Tursiops truncatus*, meaning "cut-off face." Bottlenoses belong to the superfamily *Delphinoidea*, named after a legend in which the god Apollo rose from the sea in dolphin form. The ancients commemorated this event in the constellation Delphinus, a group of five stars in the shape of a dolphin that can still be seen in the northern skies.
- ❖ The earliest known ancestors of bottlenose dolphins were the squalodonts, the first true toothed whales, which flourished about 30 to 35 million years ago.
- ❖ The average length of bottlenose dolphins is 10 feet, their average weight is about 440 pounds (they can reach up to 600 pounds), and their average life span is 25 to 30 years.
- ❖ Although mostly shallow-water feeders, dolphins are known to "sound" to depths of 1000 feet or more. Dolphins off the west coast of Africa are said to dive to 2000 feet over the steep edge of the continental shelf.

- ❖ Bottlenoses have been measured in bursts of speed of up to 17 mph.
- ❖ Dolphins communicate with a wide range of sounds. They whistle, clap, grunt, chuckle, squeak, rasp, pop and belch. Bottlenoses can also produce a rapid series of clicks, up to 1000 separate sounds per second. They "see" even the most complex shapes with their sonar. Each individual dolphin has a personal "signature whistle," just like we each have our own name.
- ❖ Bottlenoses often school with other species, such as shortfin pilot whales. They sometimes accompany great right whales and humpback whales on their migrations.
- ❖ In self defense, bottlenoses have been seen ramming large sharks hard enough to push them out of the water.
- ❖ In an aquarium, a dolphin watched a human diver cleaning the viewing window. The dolphin then copied the diver, using a seagull feather held in its beak as a scraper. The bottlenose was so efficient and conscientious at the task that the human worker was never called on again!

PASSWORDS

Keep a record of passwords for the levels you reach. Use passwords to start the game from the last level you played, or to return to any level you want to play over.

Note: Passwords change when you replay their levels.

LIMITED WARRANTY

Sega of America, Inc., warrants to the original consumer purchaser that the Sega CD compact disc shall be free from defects in material and workmanship for a period of 90 days from the date of purchase. If a defect covered by this limited warranty occurs during this 90-day warranty period, Sega will repair or replace the defective compact disc at its option, free of charge. This limited warranty does not apply if the defects have been caused by negligence, accident, unreasonable use, modification, tampering or any other causes not related to defective materials or workmanship.

To receive U.S. warranty service, call the Sega Consumer Service Department at this number:

1-800-USA-SEGA

To receive Canadian warranty service, call the Sega Canadian Consumer Service Department at this number:

1-800-872-7342

DO NOT RETURN YOUR SEGA CD COMPACT DISC TO YOUR RETAIL SELLER. Return the compact disc to Sega Consumer Service. Please call first for further information. If the Sega technician is unable to solve the problem by phone, he or she will provide you with instructions on returning your defective compact disc to Sega. The cost of returning the compact disc to Sega's Service Center shall be paid by the purchaser.

REPAIRS AFTER EXPIRATION OF WARRANTY

If your Sega CD compact disc requires repairs after termination of the 90-day limited warranty period, you may contact the Sega Consumer Service Department at the number listed above. If the technician is unable to solve the problem by phone, he or she will advise you of the estimated cost of repair. If you elect to have the repair done, you will need to return the defective merchandise, freight prepaid and insured against loss or damage, to Sega's Service Center with an enclosed check or money order payable to Sega of America, Inc., for the amount of the cost estimate provided to you by the technician. If, after inspection, it is determined that your compact disc cannot be repaired, it will be returned to you and your payment will be refunded.

LIMITATIONS ON WARRANTY

Any applicable implied warranties, including warranties of merchantability and fitness for a particular purpose, are hereby limited to 90 days from the date of purchase and are subject to the conditions set forth herein. In no event shall Sega of America, Inc., be liable for consequential or incidental damages resulting from the breach of any express or implied warranties.

The provisions of this limited warranty are valid in the United States and Canada only. Some states do not allow limitations on how long an implied warranty lasts, or exclusion of consequential or incidental damages, so the above limitation or exclusion may not apply to you. This warranty provides you with specific legal rights. You may have other rights which vary from state to state.

- **CHARTER MEMBERSHIP ELIGIBILITY** in our soon-to-be announced Sega CD owners club.

REGISTER TODAY AND WATCH FOR MORE INFORMATION!

- 1. HOW TO ENTER:** Completely fill out the registration card and mail it. Mechanically reproduced entries not eligible. Not responsible for printing errors, or for mutilated, late, lost, postage due or misdirected mail.
- 2. JUDGING:** There will be 4 drawings. Each of the drawings will take place on a quarterly basis, on or about March 31, June 30, September 30, and December 31, 1993. Winners will be selected at random from all entries received five (5) days before the drawing dates by Marden-Kane, Inc., an independent judging organization whose decisions are final. Only one prize per person, family, organization or household. If your registration card is received after any one of the drawings it will be automatically entered into the next drawing, except for the last drawing.
- 3. NOTIFICATION:** Winners will be notified by mail and will be required to sign an Affidavit of Eligibility and a Publicity/Liability Release which must be returned within 14 days from date of notification.
- 4. PRIZES:** There will be 1 prize awarded in each of the four drawings. Each prize consists of approximately 60 music CDs. Approximate retail value \$1,000.00 each. All taxes are responsibility of the winner. No prize substitutions, or transfers permitted.
- 5. ELIGIBILITY:** Sweepstakes open to all persons who are residents of the United States and its possessions, except employees and their immediate family members of Sega of America Inc., its divisions, subsidiaries, affiliates, advertising and promotion agencies. Void where prohibited by law.
- 6. WINNERS LIST:** For names of winners, send a self-addressed, stamped envelope to Sega CD Sweepstakes Winners, Inc., P.O. Box 712, Sayreville, NJ. 08871.
- 7. OFFICIAL SWEEPSTAKES RULES:** Sweepstakes subject to complete Official Rules. To obtain a copy of official rules send a stamped self-addressed envelope to Marden-Kane, Inc., Sega CD Rules, 1255 Post St. Ste. 625, San Francisco, CA 94109.
